Design possibilities.

The Signature Details

- **Seamless Integration:** Experience the fluid elegance of **integrated basins**, The vanity top and basins are cast as a single, continuous piece for a minimalist, art-house aesthetic.
- **Artisanal Surface Finishes:** Choose from our signature **GFRC Off-the-Form finish** for a sleek, architectural look, or opt for the textured, hand-worked depth of **ECC Hand-Troweled** concrete with its organic light and dark shadings.
- **Bespoke Designer Terrazzo Finish:** For our Plateau vanity surface, we offer **custom Terrazzo** finishes – a sophisticated play of concrete and stone shadings that adds timeless character to any master suite.
- **Geometric Precision:** Select from our curated library of basin silhouettes, including **Soft Rounds, Sharp Squares, Modern Rectangular, Curved and ovals, or the dramatic Linear Ramp with the sleek hidden slot drain or a pop-up waste.**
- **Limitless Customisation:** Beyond our standard geometries, we offer **Personalised Custom Quotes if our standard range does not fit your needs.** Following a private design consultation, our artisans can engineer custom shapes and dimensions tailored specifically to your home's architectural DNA.

Further details you may like to know are:

Every one of our vanity tops are made by hand to a very high standard. There are various ways to embark on allowing Slabs By Design to craft your own one of a kind vanity top for your home.

We have over 60 colours to select from and we are always adding to the list. We also offer custom colour creations if you require something outside our current pallet of colours.

Technical Specifications Table

FEATURE :	SPECIFICATION DETAILS:
MATERIAL	High Performance GFRC or ECC Concrete made specifically for furniture and benches due to the higher density of the mixes which provide a high degree of flexural strength
THICKNESS	Standard 150mm thickness for all vanity tops with inbuilt basins allowing basin shell to be fully hidden within the vanity top and not protrude into sub-joinery
FINISH	GFRC off the form finish provides a more even colouring overall with some flow marks - This is the finish used for all of our vanity tops that have inbuilt basins ECC hand troweled finish provides a more organic look with light and dark shades to the finished surface NOTE THAT THIS IS ONLY AVAILABLE FOR VANITY TOPS WIHOUT INBUILT BASINS Designer Terrazzo incorporates a combination of small aggregates to any of our concrete colours to create a truly one of a kind outcome. These pieces are given a high degree of polishing to achieve beautiful finishes NOTE THAT THIS IS ONLY AVAILABLE FOR VANITY TOPS WIHOUT INBUILT BASINS
WEIGHT	Approx. 40–50 kg/m²
SEALING	All seen concrete surfaces are sealed with a satin finish multi-stage UV Stable penetrating stain resistant sealer
TOLERANCE	Dimensional accuracy within ± 2mm
CHARACTER	Tonal mottling and minor pinholes are natural features of artisanal concrete. You will find that over time your concrete surfaces will develop their own unique patina which is part of the unique features that concrete provides.

CONCRETE COLLECTIONS - The DESIGNER VANITY COLLECTION

THE BESPOKE VANITY BUILDER -

The Designer Range: Curated Excellence

Our Designer Range offers a streamlined pathway to acquiring a Slabs By Design curated vanity top. Select from our most requested dimensions and silhouettes to curate a vanity top tailored to your aesthetic, or, contact us to create a custom size.

Seamless Acquisition & Installation

Once your piece is hand-cast and finished, we offer three tiers of delivery to suit your project:

- **Studio Collection:** Visit our Illawarra workshop to collect your vanity directly from our artisans.
- **Nationwide Freight:** For clients outside our local area, we provide specialized crating and fully insured transit to ensure your investment arrives in pristine condition.
- **The Signature Service:** Depending on your location and project scale, we offer a professional site check, delivery, and white-glove installation once your walls and joinery are prepared.

Beyond the Collection

If your vision requires a specific geometry not found in our Designer Range, we invite you to contact us for a consultation to create your own bespoke vanity top. Whether you are looking for a singular statement piece or a complete architectural package—including kitchen islands, laundry surfaces, fire hearths, and integrated outdoor BBQ areas, our team is ready to bring your concept to life.

SELECTION FROM OUR DESIGNER COLLECTION

We have made it extremely easy to start the process in creating your custom DESIGNER VANITY TOP, all you need to do is follow the prompts.

1. Select if you want an inbuilt basin or not.

2. Select floating or fixed on joinery

3. Select if you require support brackets.

NOTE THAT BRACKETS NEED TO BE INSTALLED PRIOR TO WALLS BEING LINED

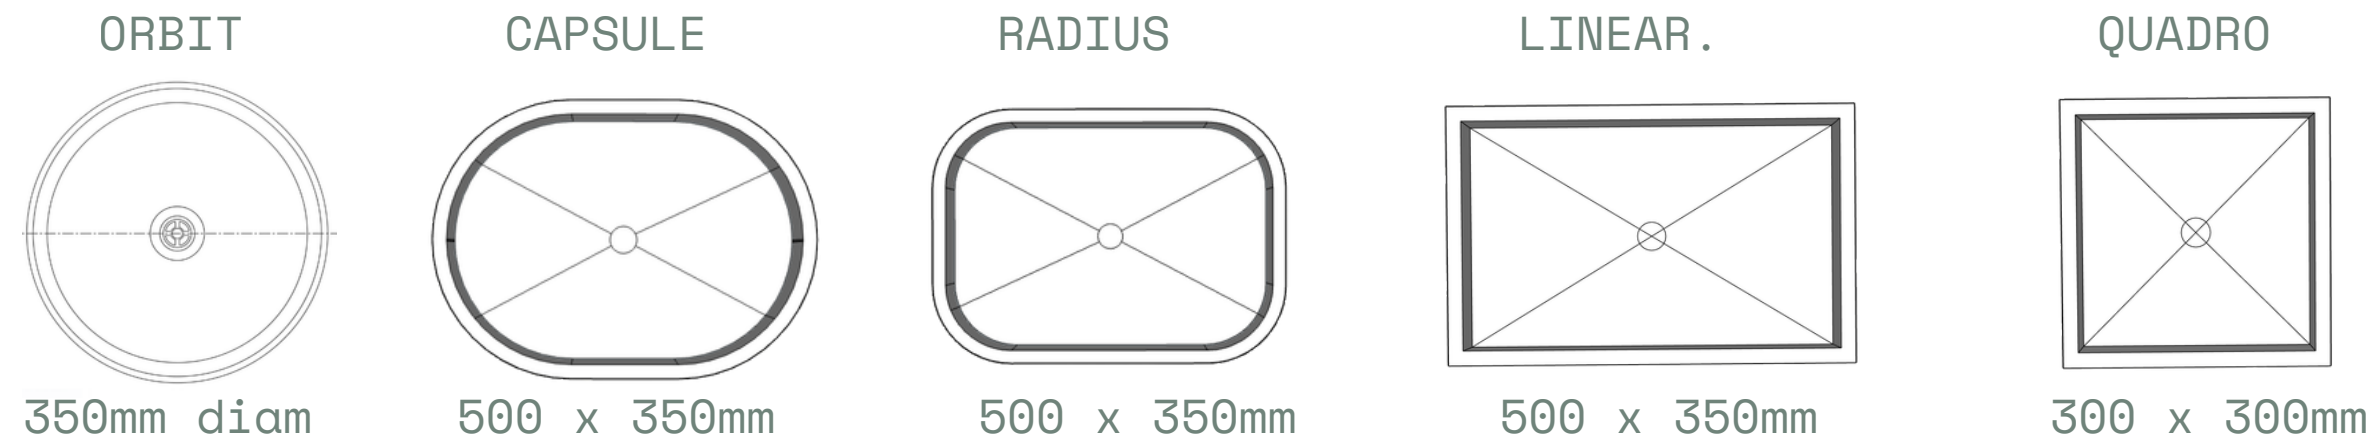

4. Select the length and width of your vanity top. If you are opting for the PLATEAU DESIGNER TOP without inbuilt basins, you can also select the size of your facings. All inbuilt basin options will have a 150mm facing size, however please contact us if you require a custom size.

Our Plateau vanity top WITH NO inbuilt basins allows for many different front facing dimensions from 20mm to 150mm. Contact us if you need a different size.

5. Select the shape of your inbuilt basin - ALL BASINS ARE 115mm DEEP

The INFINITY SLOT OP POP Ramp (Slotted drainage OR Pop-up plug & waste)

5. Select the colour of your vanity top

6. Select if you want tap holes

7. Select delivery method

Your custom vanity is a significant investment, and its safe arrival is our priority.

Due to the unique weight and fragility of artisanal concrete, we do not use standard parcel couriers.

Specialised Freight: We partner with specialised furniture and architectural freight carriers who understand the requirements of transporting heavy, high-end stone and concrete.

Full Transit Insurance: Every shipment includes mandatory Full Value Transit Insurance. This covers your piece from the moment it leaves our Illawarra studio until it is signed for at your site, protecting you against any unforeseen transit damage.

Custom Crating: Each order is secured in a custom-built, timber crate designed specifically for your vanity's dimensions.

Freight and Insurance are calculated post-order based on your specific location and the final weight of your commission. We will provide a tailored quote for your approval within 24 hours of your order if your location is outside of our regular delivery areas.

CONGRATULATIONS, you now have created your very own unique design. Let us now help you make this a reality.

Our custom polished concrete vanities offer a unique **multi-dimensional aesthetic** that adapts to any architectural vision. Whether anchoring a **refined, high-end residence** or complementing the **raw, industrial bones of a warehouse conversion**, these pieces bridge the gap between rugged and elegant.

While our **Designer Range** offers curated sophistication, we understand that true luxury often requires a personal touch. If our signature styles don't perfectly align with your vision, we invite you to collaborate with us on a **bespoke creation**. Together, we can craft a one-of-a-kind piece that is uniquely tailored to the proportions and soul of your specific space.
