

# THE SOAK COLLECTION OF CONCRETE BATHS - WHITSUNDAY

**Finishes**

- GFRC off the form mix & ECC Trowel mix are the mixes used for baths
- All concrete seen surfaces are sealed with a Satin penetrative sealer
- Customise your bath with the choice of multiple colours, ask about options for different finishes such as Hand Pressed

**Weight:**

- Bath weight approx 200kg / m2 plus water

**Options:**

- Baths moulds suit a regular bathroom pop-up plug and wastes & can be drilled larger if needed
- Once completed - Pickup from our workshop
  - Packing and Freight can be arranged
  - Depending on your location and size we can arrange site check, delivery and installation

**Notes:**

- 12 month structural warranty
- stain resistant - harsh chemicals when left on the concrete surface may affect the sealer coating
- To avoid staining it is important to rinse off basins and baths after use and remove all toothpaste, creams and liquids to avoid damage
- Installation to be completed by a qualified trades person
- When installing wastes do not over-tighten to avoid cracking the concrete surface
- All dimensions provided are approximate due to the nature of this product. Slight variations may occur in sizes, colour and finish due to the hand-made nature of the product
